# WHAT IS IT

## DUEL DUCK

A P2P prediction service  
running on the Solana blockchain

## SIMPLE PREDICTIONS

in crypto, sports, gaming, and other areas.

## CLEAR REWARDS

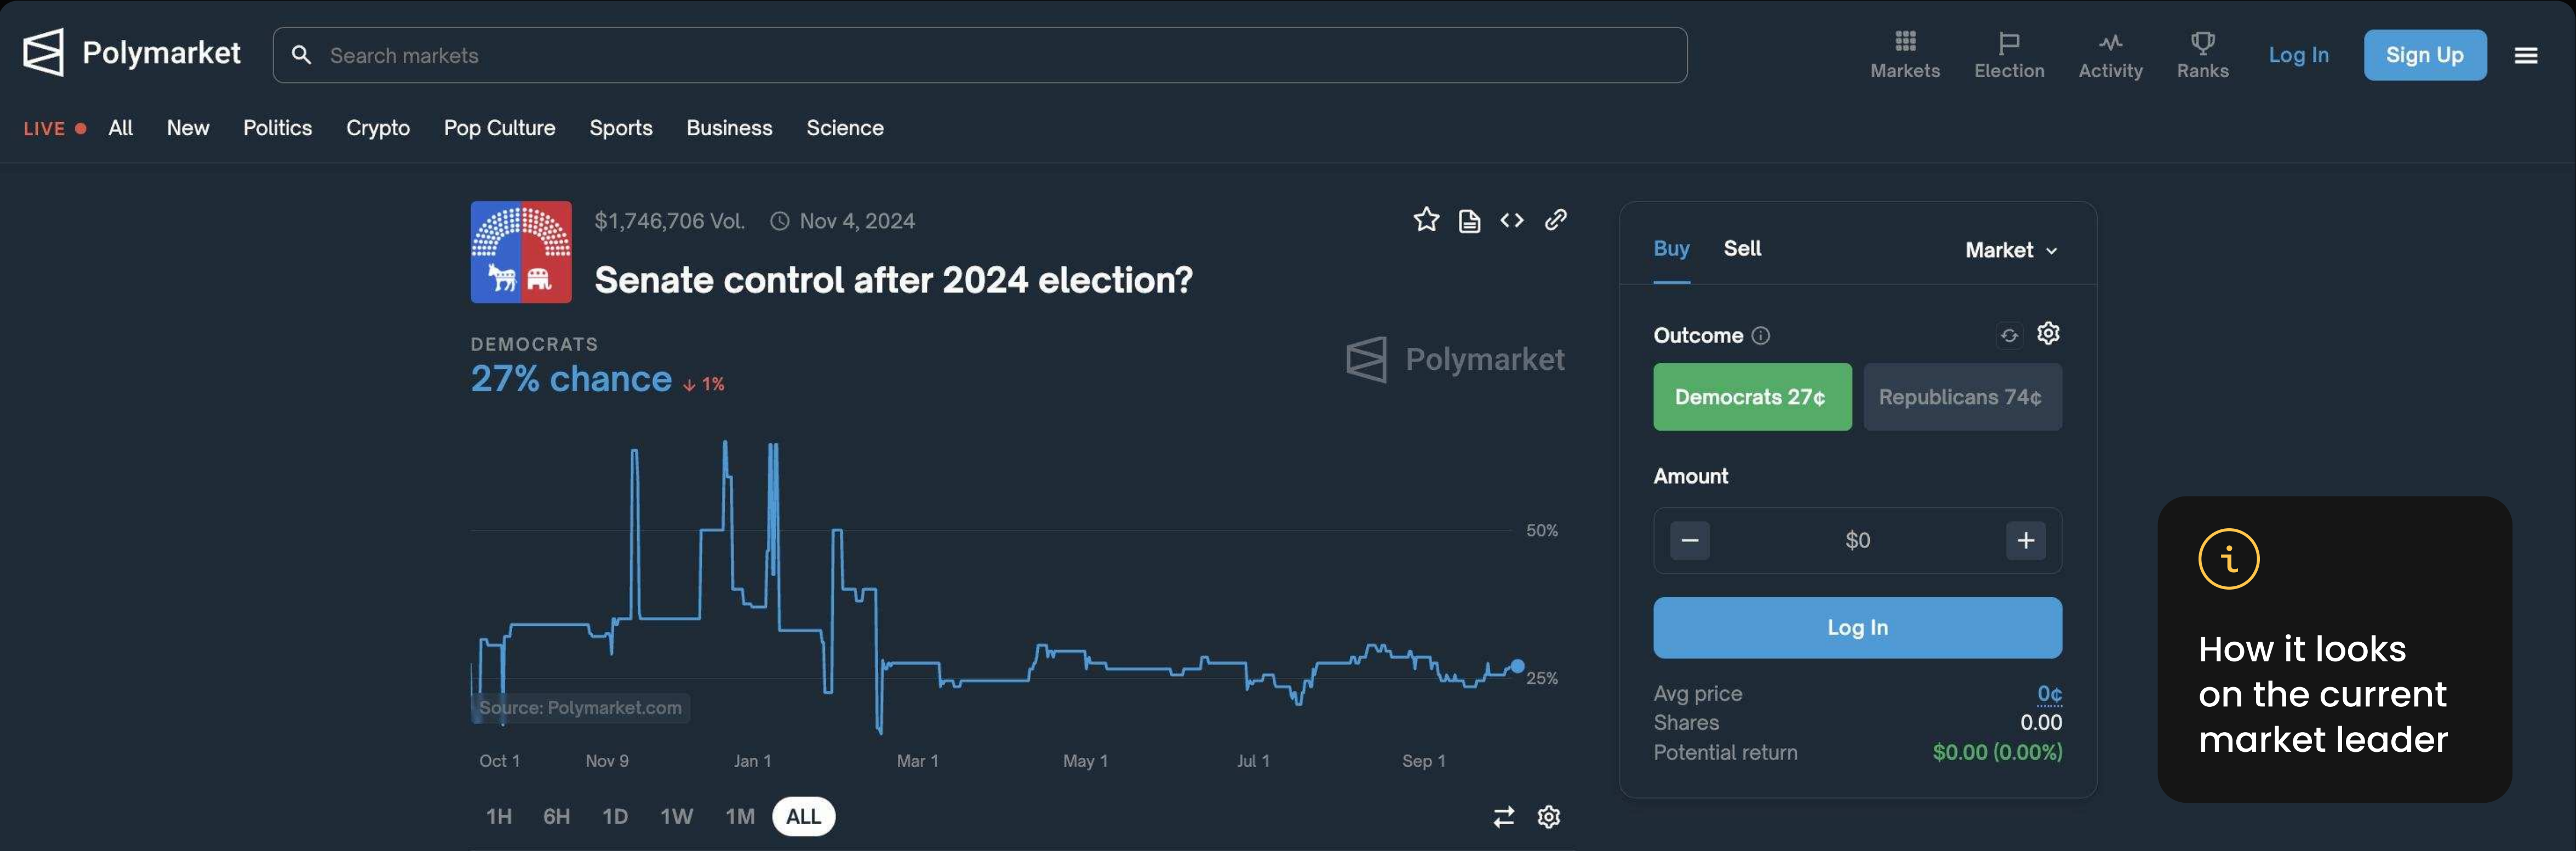

- ⊗ No complex odds
- Instant payout of winnings

## MULTIPLE WAYS FOR USERS TO EARN

- ✓ Airdrop
- ✓ Play duels
- ✓ Create duels
- ✓ Copy a leader
- ✓ Become a leader that others copy

# PROBLEM

Current Web3 prediction services based on exchange trading are **unclear to everyday users.**

# SOLUTIONS

1

Simple gameplay  
with **only two choices** "Yes" or "No"

2

**A unique way** for users to earn  
commissions from the duels they create

3

**Quick and automatic**  
rewards after the duel is over

4

Easy mechanics  
with **no hidden fees**

# COMMISSIONS

1

When a duel is created, **the author sets a commission** visible to all participants.

2

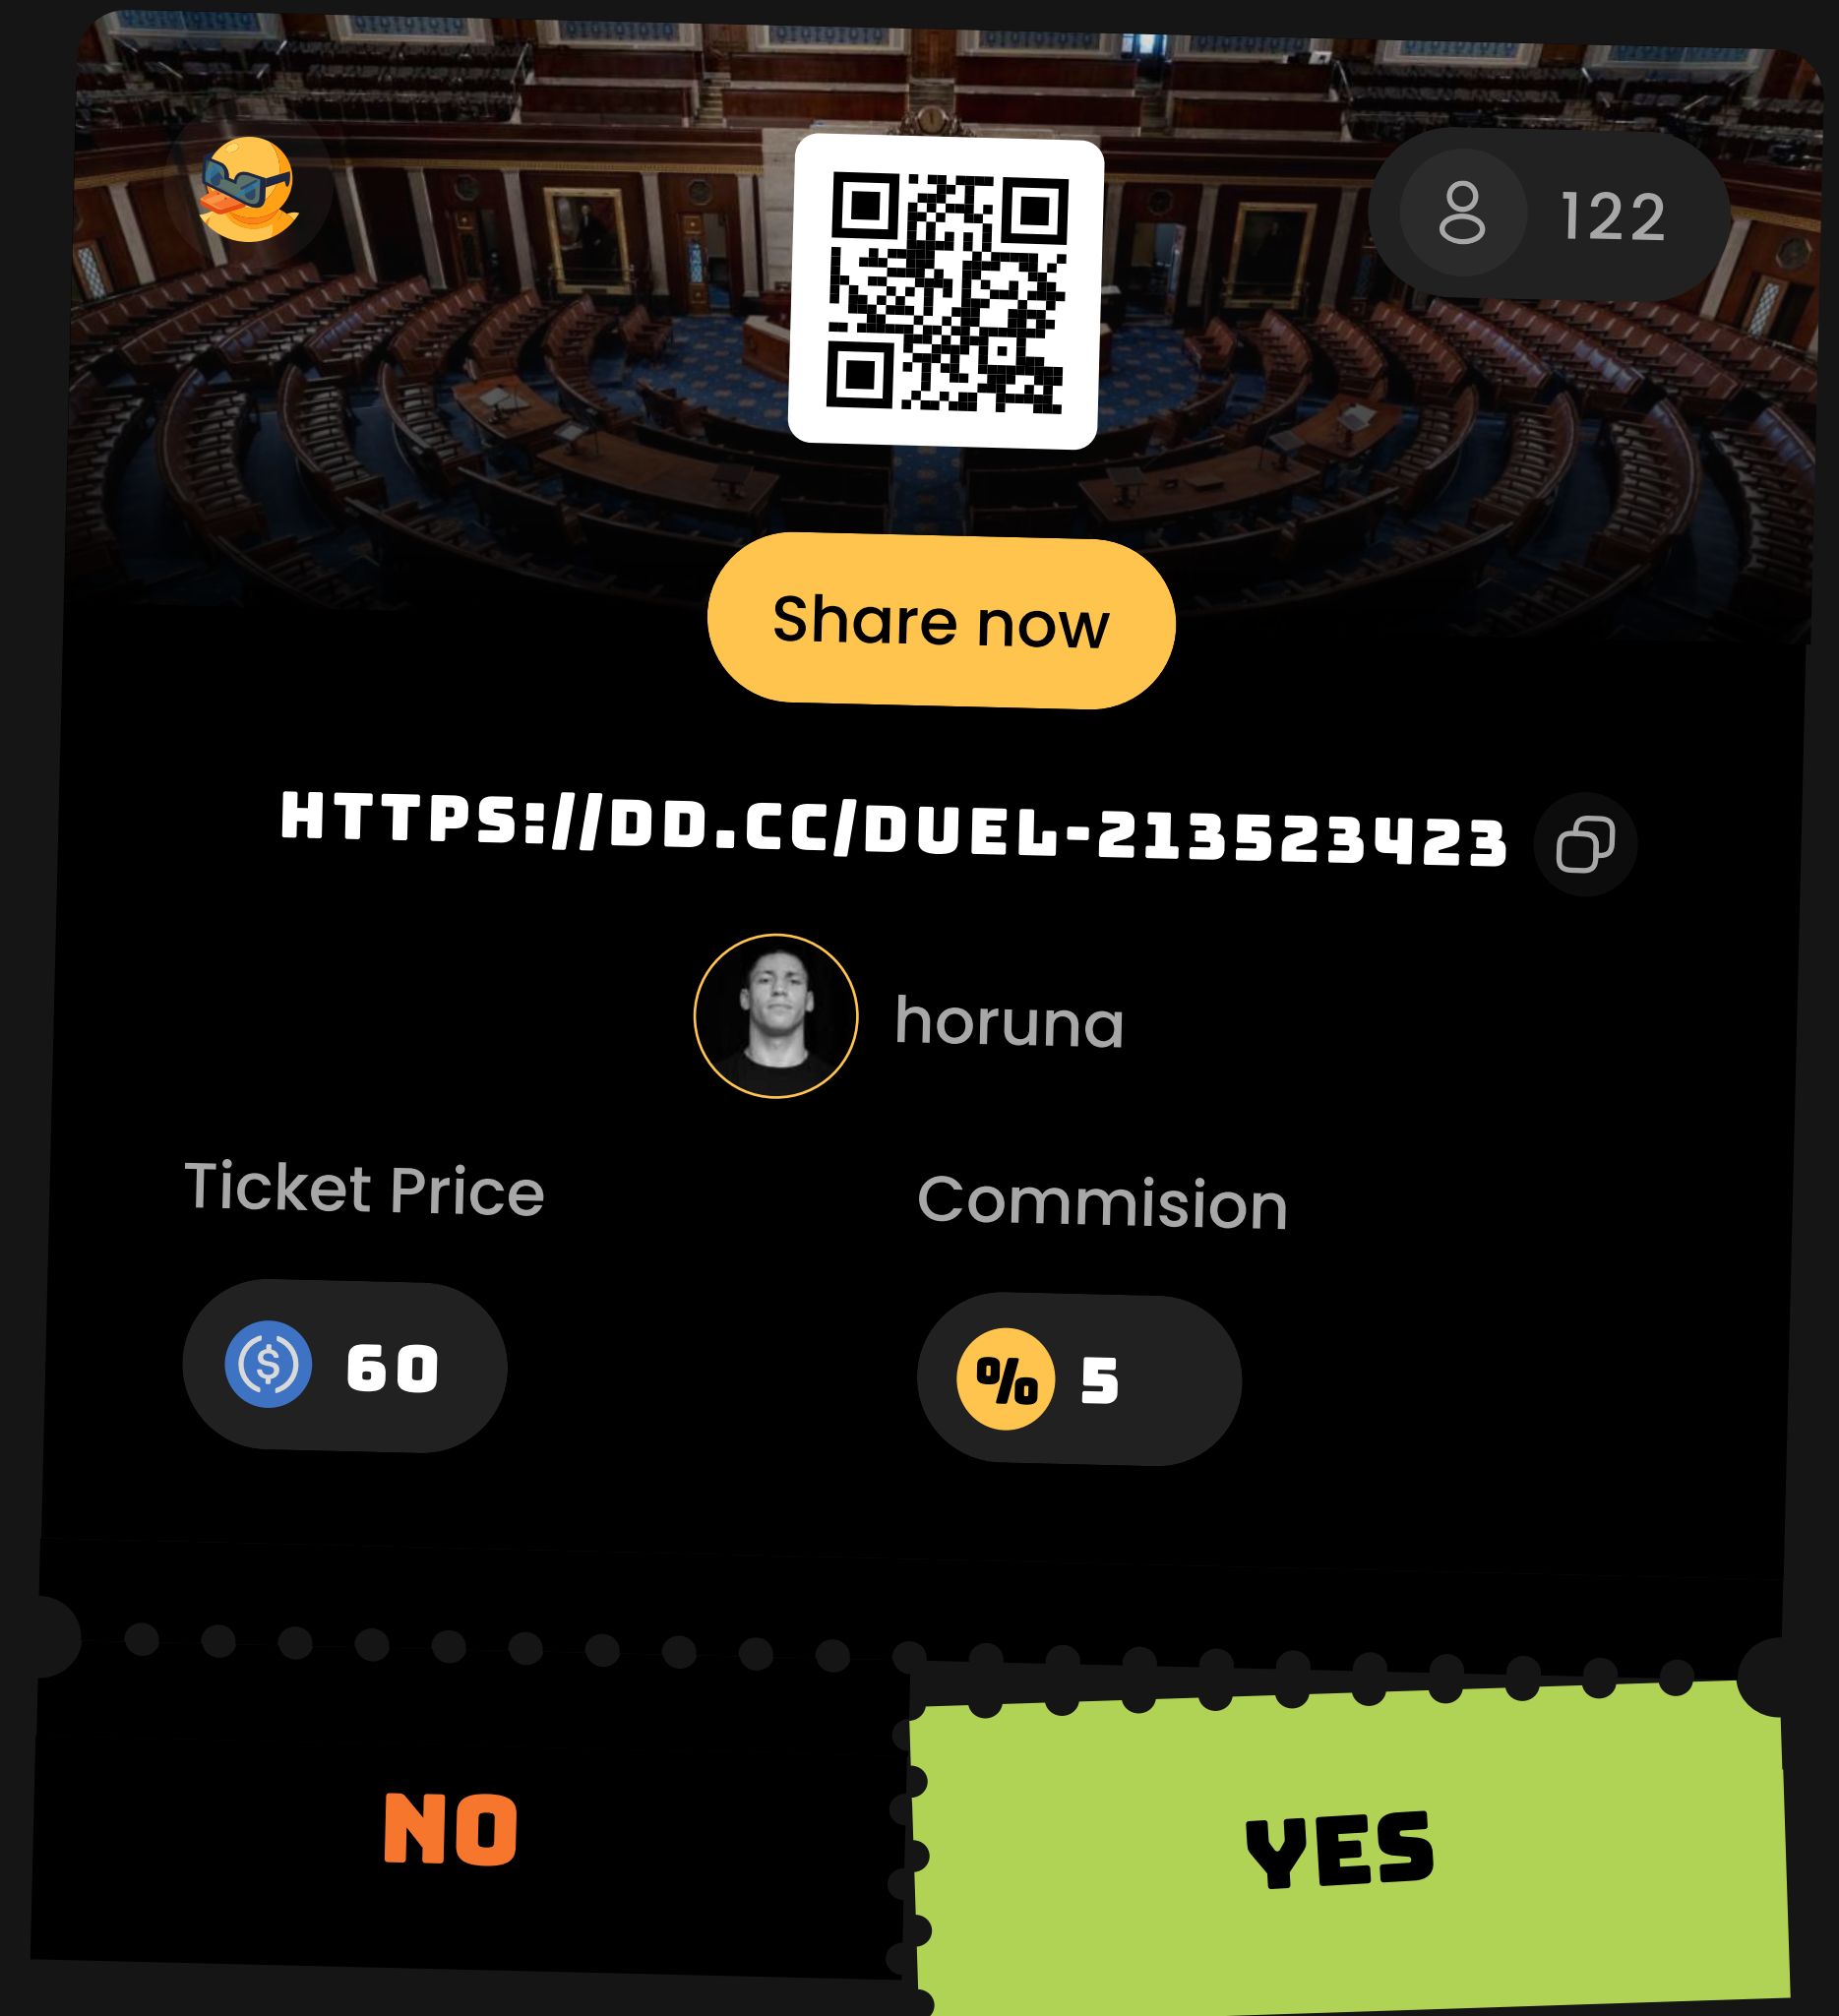

Our service will also create duels, with a planned **average commission of 7%**

3

Users can set their own commission rates **between 0% and 20%.**

4

If the commission is set by the user, **it will be shared 50/50 with the platform**

The card flips to its back side when the user clicks it

# PROFIT DISTRIBUTION

 **314**

 **988**

Users can play and create duels  
using **USDC** or **Duel Duck** tokens

IN BOTH CASES, WE RECEIVE OUR COMMISSION, AND HERE'S WHAT WE PLAN TO DO WITH THE PROFIT

## **INCOME**

All income earned in **USDC** is used to cover the project's operational expenses, with the aim of achieving break-even in the second year

## **BURN**

All commission revenue earned in our tokens will be **burned on a monthly basis**.

# THANK YOU

**vitalik.eth**  
@VitalikButerin

Prediction markets and Community Notes are becoming the two flagship social epistemic technologies of the 2020s.

Both truth-seeking and democratic, built around open public participation rather than pre-selected elites.

I want to see many more things like this.
